## **EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE**

### **Examiner's Amendment**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jose Gutman (Reg. No. 35,171) on April 10, 2005.

The application has been amended as follows:

Cancel claims 6, 14, and 22.

Amend claim 1 as follows:

At line 24, after the limitation "correlator" insert ", and wherein each initial image correlator computes a first likely match set of distinct image features that is determined to have a maximum average strength of correspondence based at least in part on a total number of matching neighbor distinct image features for each match of the first likely match set"

Amend claim 9 as follows:

At line 18, after the limitation "correspondences" insert ", and wherein the step of determining a first correspondence comprises the step of producing a first likely match set of distinct image features that is determined to have a maximum average strength of correspondence based at least in part on a total number of matching neighbor distinct image features for each match of the first likely match set"

Art Unit: 2624

Amend claim 17 as follows:

At line 19, after the limitation “correspondences” insert “, and wherein the instructions for determining first correspondence comprise instructions for producing a first likely match set of distinct image features that is determined to have a maximum average strength of correspondence based at least in part on a total number of matching neighbor distinct image features for each match of the first likely match set”

**Reasons for Allowance**

2. Claims 1-5, 7-12, 15-20, and 23-26 are allowed. The claims will be renumbered as 1-21.
3. The following is an examiner’s statement of reasons for allowance: the reasons for allowance of independent claims 1, 9, and 17 presented in the last Office Action are not repeated herein, but are incorporated by reference. Additionally, the key difference between the newly surfaced prior art of Morimura, et al (5,768,404) and the claimed invention is the fact that Morimura, et al do not rely upon, among other things, wherein each initial image correlator computes a first likely match set of distinct image features that is determined to have a maximum average strength of correspondence based at least in part on a total number of matching neighbor distinct image features for each match of the first likely match set. It is for this reason and in combination with all of the other elements of the claims that claims 1-5, 7-12, 15-20, and 23-24 are allowable over the prior art of Morimura, et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
